# About us

Hibiscus is studio based: this allows me to solely concentrate on weddings and offer the best possible tailored service to all my clients.

Many of our couples choose to include styling touches from our hire collection. This, alongside their bespoke florals, creates a beautiful ambience within their venue and show stopping backdrops.

Delivery and collection:

I will be on hand to set up and collect back any hired decorations from your wedding.

Weddings should be as sustainable as possible. Hiring decorations is a way to be eco conscious, along with our sustainable floral practices.

A guaranteed stress free wedding day! All you need to do is pop the champagne cork, sit back and relax and see your vision come to life.

# Wedding Arch Lookbook

Archways make a beautiful statement backdrop for incredible photographs and create the ultimate wow factor for guests. We recommend using them in the ceremony room then looking to potentially repurpose later in the day for a photo opportunity area.

All arches can be decorated with fresh florals and foliage or faux botanicals (price available on request) as required.

# Good To Know

We like to make this process as easy as possible for you, so will liaise with your venue or wedding planner directly to enable us to set up wedding décor hire and florals on your behalf. We will also handover to your Wedding Coordinator, if you would like to repurpose items (where possible) after the ceremony. Alternatively please do ask what our fee is for staying on site for turning around your florals and taking care of this for you on your wedding day.

Making your wedding day stress free is really important to us. Please do provide us with a list of your other suppliers such as stylists, caterers and cake maker so that we can touch base directly with them to ensure your vision is perfectly executed on your special day.

Any florals provided for your wedding day are yours to keep, gift to family and guests but it is worth noting that containers or props provided to you remain our property. I ask that you take out any of the flowers you would like and leave the containers or props at the venue for collection the morning after your wedding day. No need to wash or clean anything, that is all part of the service we offer. Any breakages or lost items must be paid for and will result in a charge which will be invoiced within 7 days of your wedding.

If you have ordered a 'Moongate', 'Arch' or Columns as part of the Goods to be provided, you must not attempt to move this item once we have placed it on site in its intended location. It is heavy and may cause damage to you or to the location if moved. Any relocation of the Moongate/arch or columns by you or by anyone instructed on your behalf is strictly prohibited and if moved is entirely at your own risk and not advised in any circumstances.

Read our full Terms and Conditions [here](#)

# Get in TOUCH

I hope our wedding hire brochure has been helpful in showing you options and inspiration. All our hire ware is interchangeable and versatile with lots of different venues, wedding colours, styles and designs. However, if there is something you are keen to have at your wedding, that is not in here, please do ask and we can look into sourcing it for you.
